

## **PO 1315: Third Party Liability (TPL)**

### **PR 1315.**

The term "third party" refers to a person, institution, corporation, or public or private agency which is or may be responsible (liable) to pay all or part of the medical cost of illness, injury, disease, or disability of an applicant/client.

By applying for and receiving assistance, clients automatically assign their rights to medical support and third party payments for medical care to the GA Unit. The assignment includes the rights of other persons for whom assistance is requested and received. An adult who fails to meet cooperation requirements found in **PO-475**, is not eligible to receive medical assistance.
