

1415.4: Exception to Staff Allocation

In some GA Units, local conditions may be such that it is inadvisable to follow the exact staffing plan and/or position classifications outlined in this topic and in [Attachment III](#) to this chapter.

An exception from the formula requires the approval of the DHS Bureau of Operations Support in the Department's Springfield office. To request such exceptions, submit the request to the DHS local office, who will route the request to Springfield through the Regional Office.
