

PO 1315.2: Explain TPL

PR 1315.2.

Advise the client at intake and at redetermination that:

- by applying for or receiving assistance, they automatically assign their rights to medical support/benefits to the GA Unit and the rights of other family members who are receiving assistance;
- they must report TPL sources and changes in TPL sources, including when there is a change in who is covered;
- they should show medical providers both their health insurance identification card and their GA medical card when obtaining medical services; and
- failure to meet cooperation requirements regarding medical support rights of PO-475, will result in the loss of eligibility for medical assistance for the noncooperating adult.
