

1410.11: Court Suits

In an action against a local GA Unit to recover expenditures, the supervisor of the GA Unit must notify DHS of the filing of the action.

The intervention of the Attorney General is allowed if:

- the GA Unit received State funds for GA purposes during all or part of the period of the expenditures for which the action is brought; or
- as a result of the action, the GA Unit may qualify for and request State funds.

DHS will request the Attorney General to intervene if the situation warrants such action.
