

Peoria County Broadband Survey

Purpose

The goal of this survey is simple and direct; improve Peoria and Woodford county's broadband infrastructure for more reliable internet access for all. How we accomplish that is even easier. We need the community's input and direction in collecting information through the survey down below to identify the broadband gaps!

What's Happening?

Peoria County has been selected to participate in the Accelerate Illinois Broadband Infrastructure Planning Program. This new planning and capacity-building program is designed to help Illinois communities leverage historic broadband infrastructure funding for community-driven broadband expansion and public-private partnerships.
